

TASK 6: Sales Trend Analysis Using Aggregations

Objective: To analyze monthly revenue and order volume by grouping sales data by year and month, using SQL aggregation functions on the online_sales table.

SQL Script : online_sales.sql

Results Table:

order_year	order_month	total_revenue	total_orders
2024	1	2500	2
2024	2	4500	2
2024	3	6700	3
2024	4	6100	2
2024	5	3700	2
2024	6	4300	2

order_year	order_month	total_revenue	total_orders
2024	1	2500.00	2
2024	2	4500.00	2
2024	3	6700.00	3
2024	4	6100.00	2
2024	5	3700.00	2
2024	6	4300.00	2
